AMENDED IN ASSEMBLY MAY 9, 2006

AMENDED IN ASSEMBLY APRIL 5, 2006

CALIFORNIA LEGISLATURE—2005–06 REGULAR SESSION

ASSEMBLY BILL

No. 2393

Introduced by Assembly Member Levine

February 23, 2006

An act to add Sections 776, 2872.5, and 2892.1 to the Public Utilities Code, relating to telecommunications, *and making an appropriation therefor*.

LEGISLATIVE COUNSEL'S DIGEST

AB 2393, as amended, Levine. Telecommunications: emergency service.

(1) Existing law authorizes the Public Utilities Commission to supervise and regulate every public utility, including telephone corporations, and to do all things necessary and convenient in the exercise of its power and jurisdiction. The existing Public Utilities Act requires the commission to prescribe rules for the performance of any service or the furnishing of any commodity of the character furnished or supplied by any public utility and requires the public utility to furnish the commodity or render the service within the time and upon the conditions provided in the rules of the commission.

This bill would require the commission, in a rulemaking or other appropriate proceeding, to develop reliability standards for backup power systems installed on customer property by a telephone corporation. The bill would require the commission, by January 1, 2008, to report to the Legislature on the results of the proceeding.

Under existing law, a violation of an order or direction of the commission is a crime.

Because the provisions of this bill are part of the act and require action by the commission to implement its requirements, a violation of these provisions would impose a state-mandated local program by creating a new crime.

(2) Existing law authorizes the commission to control and regulate the use of automatic dialing-announcing devices, which are automatic equipment that incorporates a storage capability of telephone numbers to be called or a random or sequential number generator capable of producing numbers to be called and that, working alone or in conjunction with other equipment, can disseminate a prerecorded message to the telephone number being called. Existing law exempts from that commission regulation law enforcement agencies, fire protection agencies, public health agencies, public environmental health agencies, city or county emergency services planning agencies, or any private for-profit agency operating under contract with, and at the direction of, one or more of these agencies, placing calls through automatic dialing-announcing devices to provide public service information relating to public safety, information concerning police or fire emergencies, or warnings of impending or threatened emergencies.

This bill would require the commission, in consultation with the Office of Emergency Services and the Department of General Services, to open an investigation to determine whether standardized notification systems and protocol should be utilized by the above-described entities to facilitate notification of affected members of the public of local emergencies. The bill would require the commission to report to the Legislature by January 1, 2008, on the results of the proceeding, including recommendations for funding notification systems and any statutory modifications needed to facilitate notification of affected members of the public of local emergencies.

(3) Existing provisions of the Warren-911-Emergency Assistance Act establishes the number “911” as the primary emergency telephone number for use in the state.

This bill would require the commission, in consultation with the Office of Emergency Services, to open a rulemaking or other appropriate proceeding to identify the need for telecommunications networks and telecommunications service customers to have *backup*

electricity to enable telecommunications networks to function and to enable the customer to contact a public safety answering point operator during an electrical outage, to determine performance criteria for backup systems, and to determine whether certain recommendations for backup systems have been implemented by telecommunications service providers operating in California. The bill would require the commission, by January 1, 2008, to report to the Legislature on the results of the proceeding.

(4) *The bill would appropriate \$596,719 from moneys derived from regulatory fees deposited in the Public Utilities Commission Utilities Reimbursement Account in the General Fund for costs incurred by the commission in the administration of these provisions.*

~~(4)–~~

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: ~~no~~ yes. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 776 is added to the Public Utilities
2 Code, to read:
3 776. (a) The commission shall develop, in a rulemaking or
4 other appropriate proceeding, reliability standards for all backup
5 power systems installed on customer property by a telephone
6 corporation, that do all the following:
7 (1) Establish minimum operating life.
8 (2) Establish minimum periods of time during which a
9 telephone system with a charged backup power system will
10 provide the customer with sufficient electricity for emergency
11 usage.
12 (3) Establish means to warn a customer when the backup
13 power system's charge is low or when the system can no longer
14 hold a charge.
15 (b) The commission shall, by January 1, 2008, report to the
16 Legislature on the results of the proceeding.

1 SEC. 2. Section 2872.5 is added to the Public Utilities Code,
2 to read:

3 2872.5. (a) The commission, in consultation with the Office
4 of Emergency Services and the Department of General Services,
5 shall open an investigation proceeding to determine whether
6 standardized notification systems and protocol should be utilized
7 by entities that are authorized to use automatic
8 dialing-announcing devices pursuant to subdivision (e) of Section
9 2872, to facilitate notification of affected members of the public
10 of local emergencies.

11 (b) The commission shall, by January 1, 2008, report to the
12 Legislature on the results of the proceeding, including
13 recommendations for funding notification systems and any
14 statutory modifications needed to facilitate notification of
15 affected members of the public of local emergencies.

16 SEC. 3. Section 2892.1 is added to the Public Utilities Code,
17 to read:

18 2892.1. (a) For purposes of this section,
19 “telecommunications service” means voice communication
20 provided by a telephone corporation as defined in Section 234,
21 voice communication provided by a provider of satellite
22 telephone services, voice communication provided by a provider
23 of mobile telephony service, as defined in Section 2890.2, and
24 voice communication provided by a commercially available
25 provider of voice communication services utilizing voice over
26 Internet Protocol or any successor protocol.

27 (b) The commission, in consultation with the Office of
28 Emergency Services, shall open a rulemaking or other
29 appropriate proceeding to identify the need for
30 telecommunications service customers to have backup—of
31 electricity to enable telecommunications networks to function
32 and to enable the customer to contact a public safety answering
33 point operator during an electrical outage, to determine
34 performance criteria for backup systems, and to determine
35 whether the best practices recommended by the Network
36 Reliability and Interoperability Council in December 2005, for
37 backup systems have been implemented by telecommunications
38 service providers operating in California.

39 (c) The commission shall, by January 1, 2008, report to the
40 Legislature on the results of the proceeding.

1 SEC. 4. No reimbursement is required by this act pursuant to
2 Section 6 of Article XIII B of the California Constitution because
3 the only costs that may be incurred by a local agency or school
4 district will be incurred because this act creates a new crime or
5 infraction, eliminates a crime or infraction, or changes the
6 penalty for a crime or infraction, within the meaning of Section
7 17556 of the Government Code, or changes the definition of a
8 crime within the meaning of Section 6 of Article XIII B of the
9 California Constitution.

10 SEC. 5. *The sum of five hundred ninety-six thousand seven*
11 *hundred nineteen dollars (\$596,719) is hereby appropriated from*
12 *the Public Utilities Commission Utilities Reimbursement Account*
13 *in the General Fund for costs incurred by the Public Utilities*
14 *Commission in the administration of Section 455.2 of the Public*
15 *Utilities Code. That sum shall be allocated from those moneys in*
16 *the Public Utilities Commission Utilities Reimbursement Account*
17 *derived from the imposition of regulatory fees pursuant to*
18 *Section 431 of the Public Utilities Code, and shall not include*
19 *moneys in the Public Utilities Commission Utilities*
20 *Reimbursement Account derived from the imposition of penalties*
21 *pursuant to Sections 405 and 406 of the Public Utilities Code.*
